

DECLARATION OF CONFORMITY

Trakya Pack – Pulp Molding Ltd

Registered address: Bulgaria, Plovdiv, 4006, Eastern District, 12 "Woodrow Wilson" Str.

Factory address: Bulgaria, Stamboliyski, 4210, 1 "Kokoknitsa" Str.

Company Registration No.: 204442473

Trakya Pack – Pulp Molding Ltd., under its sole responsibility, hereby declares that the products listed below, representing sustainable molded pulp packaging solutions, comply with the applicable requirements of the European Union legislation.

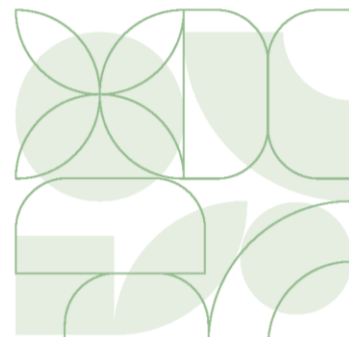

1. Declaration Scope

This declaration applies to the following molded pulp products manufactured by Trakya Pack – Pulp Molding:

- 🌱 **PulProtect Air (459 x 307 x 15.5 mm)** – Code 01.01.02.0005 – an eco-friendly alternative to bubble wrap.
- 🌱 **PulProtect Pro (712.2 x 350 x 16 mm)** – Code 01.01.02.0006 – for packing small and medium-sized goods.
- 🌱 **PulProtect Pro+ (788 x 389 x 22 mm)** – Code 01.01.02.0007 – for packing large-sized goods.
- 🌱 **PulProtect Edge (712.2 x 156 x 16 mm)** – Code 01.01.02.0008 – for corner protection.

2. Intended Use

The products are designed to protect and cushion various types of items during transportation and storage. They provide a sustainable alternative to bubble wrap, plastics, and other non-biodegradable packaging materials.

3. Raw Materials Use

- 🌱 The products are made from 100% recycled paper and cardboard.
- 🌱 All raw materials and additives used in the manufacturing process comply with legal safety and sustainability requirements.

Raw Material Group	Composition	Standard
1.05.00	Used corrugated cardboard	EN 643
2.01.00	Old newspapers	EN 643
3.12.00	Low-grammage multi-ply board with wood pulp	EN 643
3.20.01	Trimmings from tissue converting	EN 643
4.01.00	Clean corrugated cardboard cuttings	EN 643
4.01.01	Clean corrugated kraft cardboard cuttings	EN 643

4. Applicable Legislation and Standards

- 🌱 Regulation (EU) 2025/40 of 19 December 2024 on packaging and packaging waste (PPWR)
- 🌱 Directive 94/62/EC on packaging and packaging waste (until fully repealed)
- 🌱 Regulation (EC) No 1907/2006 (REACH) – free from SVHC substances
- 🌱 Directive 2008/98/EC on waste
- 🌱 Directive (EU) 2018/851 on Extended Producer Responsibility (EPR)
- 🌱 EN 13427 – General guidelines for the application of related standards
- 🌱 EN 13428 – Reduction of volume/mass
- 🌱 EN 13429 – Reuse
- 🌱 EN 13430 – Recyclability
- 🌱 EN 13431 – Energy recovery

5. Environmental Responsibility

PulProtect products are fully recyclable and biodegradable. When disposed of in nature, the material decomposes within 90 to 180 days, contributing to sustainability and reducing environmental footprint. They do not contain SVHC substances, PFAS, BPA, or any other regulated hazardous substances.

6. Traceability

Each batch is identified with a unique internal code and stored in the ERP system for full traceability.

7. Conformity Assessment

The products are not subject to assessment by a notified body.

8. Storage and Handling Guidelines

To maintain product integrity:

- Store in a dry place with relative humidity below 60%.
- Avoid prolonged storage exceeding 4 months.
- Protect from dust, moisture, and water.
- Keep away from direct sunlight to prevent aging or changes in color and quality.
- Store in facilities that are regularly inspected and treated against pests such as insects and rodents.

9. Validity

This declaration remains valid until significant changes occur in the manufacturing process, material composition, or relevant legal regulations.
